

Authentic street punk with catchy tunes from Germany!

TANK SHOT exists since mid-2016. No project, no artificial product, here a new band was formed out of friendship and fun with music, far from common clichés or trends.

Just one year later, a complete set of catchy songs has been put together, which is certainly not least due to the band experience of the five musicians, which goes back to the early 80s.

A small selection of earlier works:

Annex5, Y-Fronts, Recharge, Testosteron, Audio Kollaps, Sanitys Dawn, Guts 'n' Glory, Kybernetix, Melones

After their debut album "First Strike" released in 2018, "Psycho Man" follows in 2021. 13 melodic hits, recorded and produced by Gregor Hennig (Die Sterne, Stoppok, Bela B) at the legendary Studio Nord Bremen, featuring Alla from the early 80s German punk group Stosstrupp as guest vocalist. The LP is released in blue vinyl + download code, the CD contains 2 bonus songs.

The music speaks for itself, the energy and joy of playing is transferred from the studio directly to your home.

After brilliant performances at the Punk & Disorderly Festival Berlin and as support band of Cock Sparrer as well as the already thousandfold clicked "Stay Safe" video clip, here comes the second work, released by Laketown Records (Europe) Liberty or Death (USA) and Kids Union (Asia).
